INTRODUCTION.

We once more come before our patrons and the public with the forty-eighth annual Directory of Troy and vicinity, giving, so far as possible, complete and reliable information as to the location of the inhabitants generally, their business interests, particulars of all societies, and other organizations to be found within the territory mentioned on our title page.

We have made use of every facility at our command, and every endeavor which our long experience in the business can suggest, to make this volume in all respects superior to any of its predecessors, and we are confident that we have rendered the work a fit representative of the growth, industry, and enterprise of our people. In the multitude of names and figures, however, which almost exclusively go to make up a work of this kind, we should have accomplished a *miracle* had we completed the work without making any errors or omissions, although we confidently believe these will not be either many or important.

The building interest of our city has suffered so much during the past year from the general depression in business, that we are able to mention only one building in process of erection of particular importance. This is our new City Hall, which promises to be all that its projectors could have anticipated, and one of which every citizen may justly feel proud. It is expected that it will be completed during the present season, and before our next issue makes its appearance it will be occupied by the various officers for whom its erection was contemplated.

The opening of the Hoosac tunnel has added materially to our railroad interests by giving more direct communication with Boston and the intervening places, and we must in future necessarily reap great advantages therefrom. The Citizens' Line of passenger steamers running to the city of New York are also not only worthy of mention, but they are justly entitled to the patronage of every inhabitant, and we hope no business man will be unmindful of his obligation to them. The company have just added to their line the beautiful new steamer, "City of Troy," which, for elegance, completeness, and comfort of passengers, has no superior on the Hudson River, and we can't but feel that every citizen is in duty bound to bestow upon them all the patronage and encouragement in his power.

The Trustees of the Rensselaer Polytechnic Institute are making preparations for the erection of an observatory in connection with that Institution, and will, as soon as the site is determined upon, commence the erection of a suitable building for that purpose, being assisted in the enterprise by one of our charitable and benevolent families. As a crowning event of the present year, a full, complete and authentic history of the city of Troy will be issued immediately after the hundredth anniversary of the signing of the Declaration of American Independence, and will embrace all the notable incidents connected with the settlement and growth of the city to the present day.

As has heretofore been our custom—since the fortieth issue of this work—to record the demise of those of our citizens whose names appeared in the first Directory of 1829, we mention below the following as having departed this life since our last publication: Charles L. Richards, Charles H. Merritt, Henry B. Smith, Samuel W. Baker, Henry Landon, Silas K. Stow, Cornelius Schuyler, Latham Cornell, Dr. James Langworthy and John L. Ostrom.

A complete set of the Troy Directories, from its first publication, are often consulted in matters of importance, and are at the disposal of our patrons for examination during business hours.

CHANGES MADE IN COMPILING THIS EDITION.

	Troy and Lans.	*Cohoes.*	*West Troy.*	*Total.*
Names in this edition	20,010	5,376	3,999	29,385
Names in last year's edition	18,352	5,124	3,699	27,175
Increase from 1875 to 1876	1,658	252	300	2,210
Names added in preparing this edition	4,922	1,345	835	7,102
Names erased in preparing this edition	3,264	1,093	535	4,892
Changes in names, business and locations	6,114	1,436	919	8,519
Whole number of changes and additions made in preparing this edition				20,513

Of the 27,175 names that were printed in the three departments of the Directory last year, only 13,764 remain in this issue without some alteration. By comparison, it will be seen that, on an average, less than 50 per cent. of the names in the last year's edltion remain the same in this, and that about 25 per cent. of the names in this issue were not in the Directory of last year.

STREET DIRECTORY.

GIVING the name of each street, and showing what other streets and places run from it or across it, with the number at which they intersect.

From this list, the location of any number on a street can be easily ascertained; as, for instance, wishing to know at what part of Second street No. 168 comes, you look at Second street, on page 13? and find that Liberty street crosses at 156, and Washington street at 178, showing that 168 Second street would come half way between Liberty and Washington streets.

TESTIMONIALS.

Having attended an examination in Mathematics in Prof. Willson's school, I take pleasure in expressing my great satisfaction with the manner in which it was conducted, and with the excellence of the result. The thorough knowledge of principles exhibited by the members of the class, and their ready command of them in practical application, were a sufficient indication of the discipline they had received in this department of their training. I cordially recommend the school as one well worthy of general patronage.

TROY, JUNE 30, 1859.

DASCOM GREENE,
Prof. Mathematics, &c., Rens. Pol. Inst.

It is with great pleasure that the undersigned, having attended an examination in the classics, held at Troy Academy, on the 7th of June, 1864, express their appreciation of the results of the training under Prof. Willson. The proficiency, both in the Latin and Greek languages, attained by those who received instruction from him, their familiarity with the various forms, and their exactness in translation, testified in no doubtful manner to the diligence and tact of their instructor. It should be stated in connection with the above, that the recitations were from portions of the works selected by the committee at the request of the Principal, and that no opportunity was given for any other preparation than that already furnished by the discipline of the session.

Ward Boundaries.

The city is divided into five wards bounded and described as follows:

FIRST WARD.

All that part of the city included within the following lines, to wit: Commencing at a point in the Mohawk river, where the center line of Vliet street extended, intersects the boundary line of the city, thence westerly along said line and the center line of Vliet street to its intersection with the Erie canal, thence southerly along the center of said canal to the center line of Cataract alley, extending westerly to the Central railroad, thence westerly along said line to said railroad, thence northerly and westerly along the center of said railroad to its intersection with the center of the Boght road, thence westerly along said Boght road to the western boundary line of the city, thence northerly and easterly along the boundary line of the city to the place of beginning, shall comprise the first ward.

SECOND WARD.

All that portion of the city comprised within the following lines, to wit: Commencing at a point in the Mohawk river where the line of Vliet street extended, intersects the boundary line of the city, thence easterly and southerly along said boundary line and the center of the south branch of said river as it flows easterly of Simmons' island to a point directly east of the south end of said island; thence in a direct line, to the point of intersection of the center of Pine street with the center of the Champlain canal, thence along the southern boundary line of the second ward of the village (now city) of Cohoes, to its intersection with the Erie Canal, thence northerly along the center of said canal to the center of Vliet street, thence easterly along Vliet street and the line of Vliet street extending to the place of beginning, shall comprise the second ward.

THIRD WARD.

All that part of the city comprised within the following lines, to wit: Commencing at a point in the center of the south branch of the Mohawk river, directly east of the south end of Simmons' island, thence southerly along the center of said south branch to a point where the center line of Cedar street extended easterly intersects the same, thence westerly along said line and thence westerly along said line and the center line of Cedar street to the center of Saratoga street; thence in a direct line, to the center line of Columbia street where it intersects the center line of Mohawk street; thence westerly along the center line of said street to the center line of the Erie canal; thence northerly along the center line of said Erie canal to its intersection with the center line of Cataract alley, extending in a direct line to the center line of the New York Central railroad; thence easterly along said line of Cataract alley, and the southerly boundary line of the second ward of said city as hereinbefore defined to the place of beginning, shall comprise the third ward.

FOURTH WARD.

All that portion of the city lying south of the southerly line of the third ward and south of the center line of Columbia street extended, to the western bounds of the city, shall comprise the fourth ward.

FIFTH WARD.

All that part of the city included within the following lines, to wit: Commencing at a point where the center line of the Erie canal intersects the center line of Columbia street, running thence northerly along the center line of the Erie canal to a point where it intersects the center line of Cataract alley extended, in a direct line, to the center of said canal; thence running westerly, in the direct line of Cataract alley extended, to the center of the track of the New York Central railroad; thence northerly along the center line of said railroad track to the center of the Boght road; thence running westerly along the center line of said road, to the westerly bounds of the city, thence running southerly and along the west bounds of the city to the center line of Columbia street; thence easterly along the center line of Columbia street to the place of beginning, shall comprise the fifth ward.

This Company owns the entire water-power of the Mohawk River at Cohoes, embracing the celebrated Cohoes Falls. Aggregate fall one hundred and twenty feet, giving nearly ten thousand horse-power. The Company's gate-house and dam are among the finest structures of the kind in the United States.

The canals are so constructed as to give a succession of falls from one canal to another, varying in height from twelve to twenty-five feet. The power is leased by the Company, with land for factory buildings, in perpetuity, at an annual rental of about twenty dollars per horse-power, and considering the locality, is the cheapest in the country. It is an unfailing power, and during the past few years, while most of the water-powers in the country have failed for a time, Cohoes has had an abundant supply, without one minute's stoppage. About one-third of this magnificent power is unappropriated, and appurtenant thereto are some of the finest factory sites to be found anywhere.

Cohoes is situated at the confluence of the Mohawk and Hudson rivers, about four miles from Troy and ten from Albany, and is eligibly located with reference to New York and other markets, and possesses superior advantages for transportation to market, either by river, canal, or railroad, having two canals and two railroads running through it. It is a thriving young city of nearly twenty thousand inhabitants, and contains some of the finest cotton and other factories in the United States.

Directions to Key Holders.

Upon seeing a fire in your immediate vicinity, or having positive information of a fire near your signal box, unlock the door, and pull the hook all the way down and let go of the hook; then wait a few moments, and if you hear no ticking in the box, or alarm on the bells, go to the next nearest box to the fire.

Never open the box or touch the hook except in case of fire.

Never pull the hook if the bell in the box is ticking.

Never give an alarm except from the box nearest the fire.

Be sure the box is locked before leaving it.

Never let the key go out of your possession, unless to some responsible person for the purpose of giving an alarm, or when called for by the Superintendent.

The number of the box signaling the fire will be struck upon the gongs of all the engine houses; also upon St. Paul's, St. Peter's, St. Mary's and St. Joseph's church bells. For example: to announce an alarm from Signal Box No. 24, the bells will be struck TWICE, and, after a pause of seven seconds, will be struck FOUR times: thus 2—4.

The number of the box will be repeated at intervals of twenty seconds until a sufficient alarm has been sounded.

Money Order Department.—GEORGE CAMPBELL, *Clerk.*

Registry Department.—E. WALTER ROBERTS, *Clerk.*

Stamp and Stamped Envelope Department.—GILBERT D. ROBERTSON, *Clerk.*

There are four deliveries daily between Hoosick and Ida streets. Carriers leave the office as follows: At 7.30 A.M., 10.30 A.M., 2.30 P.M. and 5 P.M. Two deliveries, viz.: at 7.30 A.M. and 2.30 P.M., in Fifth, Sixth and Tenth Wards. Letters collected from street boxes on return from each trip. In addition to the above-named deliveries, special deliveries will be made on the arrival of every important mail, on River street, between the bridge and Ferry street, on Fulton street and on Broadway.

☞ This mode of delivering letters is equally as safe and expeditious as delivery at the Post Office. It also saves time and trouble of calling at the Post Office after the arrival of each mail.

Sending Money by Mail.

Money should never be enclosed in an ordinary letter. The Post Office Department has devised two methods for the safe transmission of money, one of which should be invariably used. A list of money order offices will be found at the Post Office. When the office to which it is desired to send money is not a money order office, persons should avail themselves of the provisions for Registering Letters. Letters may be registered and thus sent with safety to any Post Office in the United States, Canada, Great Britain, and most foreign countries, at a trifling cost.

The Steamers of this line are furnished with neat and elegant Family and State Rooms, and Berths, and are replete with all the comforts and conveniences that can be desired by the traveler. Baggage taken free to and from Cars and Boats at Troy. This route offers special inducements to parties of pleasure, as well as business men, traveling between the North and New York in the heat of Summer, by which the monotony of a long Railroad ride, and the annoyance of dust in crowded and noisy cars are all exchanged for a quiet, pleasant and expeditious Steamboat Ride.

Leaving New York, from Pier 49, N. R., foot of Leroy St., arriving at Troy in time for all trains going North, East and West.

Leave Troy, foot of Broadway, on arrival of Trains of Rensselaer & Saratoga, Troy & Boston and connecting Rail Roads, arriving in New York in time to make sure connection with all trains South and East.

All Freight Handled with Care, and Forwarded with Safety and Despatch.

GEYSER SPRING,

THE CELEBRATED

Spouting Spring of Saratoga.

As a medicinal agency its effects are marvelous. Testimonials from all quarters are received, bearing witness to its wonderful cures of diseases; especially in *cutaneous diseases or any of the various phases of Scrofula.* It is used with telling effect in *Kidney Disease, Liver Complaint, Dyspepsia, Biliousness, Rheumatism, Acidity of Stomach, Constipation and Piles.* It is a delightful beverage, and when taken as a cathartic leaves none of those unpleasant effects observable in the use of many other of the Saratoga waters

During the season of 1875 over one hundred thousand persons visited the GEYSER SPRING, and the universal testimony is that the waters are the best and the Spring the most wonderful in the world.

SUGGESTIONS IN REGARD TO THE USE OF GEYSER WATER.

GEYSER WATER is a powerful cathartic, while at the same time, by proper use, its minerals may be retained to operate as a tonic and builder up of an enfeebled system.

The grounds about the GEYSER SPRING are very picturesque and beautiful. On the GEYSER premises is a handsome lake, covering about sixty acres, and over one mile in length; a handsome waterfall of twenty-two feet, also a park containing thirty acres, with ravines, terraces, shady and cool retreats to welcome the visitor.

The Spring property is not managed by a Stock Company, and for the purposes of business the proprietor has adopted only the name "GEYSER SPRING." Address
